

3M Commercial Graphics
3M™ Scotchcal™ Clear View Graphic Film 8150

A Clear Advantage. For Glass Graphics.

A Clear Advantage.

Thanks to 3M™ Scotchcal™ Clear View 8150.

For 50 years, 3M Commercial Graphics has stood for innovative applications, high-performance products and reliable partnerships. 3M™ Scotchcal™ Clear View Graphic Film 8150 demonstrates these combined strengths in yet another innovative product. This graphic film is sure to impress as it opens up so many possibilities for glass design: graphics, texts and special effects can be combined and built up in a completely new way.

- The optically clear nature of the film eliminates the need to cut around the printed design
- Special effects are possible – for example prints using white ink
- One-way vision achievable thanks to perforated film simulation (no need for perforation)
- Superb conformability enables easy application on contoured and structured surfaces
- One-sheet solution makes the film easy to remove leaving no residues

A Clear Advantage. With an Optically Clear Graphic Film.

3M™ Scotchcal™ Clear View 8150 is a cast PVC film is totally optically clear and allows new approaches to glass design. Unprinted areas permit a completely clear view through the glass and the film

structure results in optimum print quality. The film has many uses and is extremely easy to apply.
